A NIGHTMARE

Gives point to the fact that excessive or irregular eating disturbs the digestion. Nightmare or night hag has its day time correspondence in the undue fullness after eating, with the belchings and sour or bitter rising so often experienced after too hasty or too hearty eating.

Dr. Pierce's Golden Medical Discovery cures dyspepsia or bad stomach. When the weak stomach is strengthened and invigorated the whole body shares in the increased strength derived from food properly digested and perfectly assimilated.

"I was a victim of sleeplessness and extreme nervousness induced by chronic indigestion and I felt heavy, tired and worn out continually," writes Miss Mary Smith, of 1613 No. Wahsatch Street, Colorado Springs, Colo. "Dr. Pierce's Golden Medical Discovery was the only medicine which relieved me. Within a week after I began using it that heavy oppressed feeling after meals had left me, and I found that I was able to sleep better than for months previously. My appetite was gradually restored, general system was toned up, nervousness became a thing of the past and I have now been in splendid health for over nine months."

Sometimes a selfish dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It may be better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

1000-page Doctor Book sent free on receipt of 21 one-cent stamps to cover postage only; 31 stamps for cloth-bound copy. Formerly sold for $1.50 to extent of over 500,000 copies. Every family should possess a copy for ready reference in case of sudden illness or accident. It is illustrated with hundreds of woodcuts and several colored plates. Address Dr. R. V. Pierce, Buffalo, N. Y.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE STORM IN NEW YORK.

Clearing weather which followed the great storm of Wednesday brought New York one of the coldest days in many years. During the early hours of yesterday the mercury reached the zero mark.

The intense cold held very steadily during the morning. The mercury clung closely to the zero mark, rising at a rate of hardly one degree per hour. The wind continued, and the conditions were hardly less unpleasant than on Wednesday.

Terrible suffering is reported among the residents of some of the poorer quarters of the city, where thousands were without sufficient heat, clothing or food. Charitable institutions where free lodging is given the homeless were packed to their capacity during Wednesday night. In the City Lodging House, the capacity of which is only 500 persons, there were 700 men. Many of the men had their hands or feet frozen. The number of unfortunates was so large that more than 200 cots were placed on a pier at the foot of east Twenty-sixth street for the use of the homeless men.

While nothing like full reports from all sections of the city have been received, it was known that at least eight deaths had resulted directly from the abnormal weather. All of these victims were persons who fell in the street benumbed by the cold and exhausted from the effort of attempting to force their way along the snow-drifted streets.

One of the most serious conditions which confronted New Yorkers yesterday was the food and fuel supply. Already there is practically a famine of milk.

Coal dealers reported that they had about a two-days supply on hand, but they seemed very certain that the conditions will improve sufficiently within that time to allow them to get a renewal from the wholesalers, who have thousands of tons in barges on the New Jersey side of the Hudson river.

Provisions of all kinds have been advanced in price by the wholesalers, and in many cases tha retailers hove added 2 or 3 cents a pound to the advance of the larger dealers.

The recovery of the surface lines even in the centre of the city was very slow, and the underground and elevated trains were seriously taxed to handle the increased traffic. The subway particularly was favored. The great crush made the movement of trains extremely slow, and no attempt was made to maintain schedules.

Every railroad running to New York was suffering severely. Not one of the through trains had succeeded in getting through in either direction, and suburban traffic was in a serious state.

Conditions in Brooklyn were worse than in New York. There is no subway in that borough to take care of the overflow traffic, and the slow-moving surface cars and elevated trains were jammed. On many lines no cars at all were running during the usual rush hours, and thousands of persons were oblige to walk long distances.

The Long Island Railroad which was tied up completely as a result of the storm Wednesday, reported that not a wheel had been moved.

Traffic conditions on Staten Island were so bad that the county offices remained closed for the day, as none of the officials could reach the county building.

Wednesday afternoon the largest houses in New York, employing thousands of employees, sent home many of those who lived far away or out of town. This was true particularly in the largest department stores, employing many women and girls.

The subway station at the City Hall was the scene Wednesday night of one of the most remarkable "mob rushes" the police have any record of. It began shortly before 5 o'clock and did not abate to any great extent until after 7 o'clock. The crowds could hardly be controlled by the reserves.

At the Brooklyn bridge the scenes enacted under normal conditions during the afternoon rush for Brooklyn were made worse manyfold by the condition which the storm produced. For two hours such a mob stormed the elevated platforms in the attempt to secure the few trains that were running that the police were compelled to draw their clubs and beat back the most insistent.

Energetic action by police reserves from two precincts prevented a possible serious accident on the platforms and stairways of the South Ferry elevated railroad terminal. About that hour passengers who arrived on a ferryboat from Brooklyn spread the report that the Brooklyn trolley cars were not running, and hundreds of persons in the ferry-houses made a rush for the elevated platform, intending to go to Chatham Square and transfer there to the Brooklyn bridge. These hundreds, added to the already filled platforms, made a greater crush. The platform crowd surged and fought about the train gates to get on the cars and the passengers in the cars struggled to get out.

Finally passengers in the cars raised the windows and began to make their exit that way. Some succeeded, but as a window was opened by a passenger inside a car, some one on the platfrom fought to get in. Window after window was broken. When the police arrived the stairs and platforms were a dense jam of struggling people. After the police had been at work for half an hour the platforms were reasonably cleared, but the crowd was thinned partly by the space made by hundreds of Brooklyn people who returned to the ferry-houses or made their way to the Brooklyn bridge.

"Russia Cloven in Twain."

The London Daily Telegraph's dispatches yesterday said:

"Russia is cloven in twain, and no human force can weld the parts together. On one side stands the autocrat whose behests are still mechanically fulfilled by his army, which, however, is a section of the people. On the other hand stands the entire nation, united in the determination to deliver itself from a yoke which has now become unbearable. The army is acting in virtue of use and wont, and in time will come over to its own kith and kin."

The correspondent declares that in the whole empire there is but one official so utterly loathed as Trepoff, and that is General Kleighels of Keiff, who may yet be Minister of the Interior. That, the correspondent says, alone proves that the autocracy has declared war against the Russian nation. He asserts that arrests have been so numerous that the fortresses and prisons are overcrowded.

Arsenieff, who was arrested after attempting Saturday night to present a reform petition to the Minister of the Interior, the Daily Telegraph's correspondent adds, has been liberated, and the prison doctor has certified that Editor Hessen has heart disease, which would be likely to prove fatal unless he is released.

A dispatch from London says:

The newspapers have been given up almost exclusively since Sunday to alarmist reports from Russia, hostile articles and scathing editorials on the "massacre," one of the mildest terms used for the affair on Sunday, and the Russian emperor and his government are generally compared to "beasts at bay." Accounts of the troubles, according to the Associated Press, have been grossly exaggerated by British correspondents.

No More Silver Dollars.

No more silver dollars are to be coined in this country unless Congress at some time authorizes the resumption of coinage and the purchase of silver for that purpose. The last of the silver bullion purchased under the act of 1878, for the resumption of silver coinage, has been put into silver dollars. There is an exception of 1,000,000 ounces that is being kept for subsidiary coinage, and in a few months this will be used up, and in the future the treasury must buy silver bullion for subsidiary coinage purposes. Under the Bland-Allison act, says Geo. E. Roberts, director of the mint, the total coinage of silver dollars has been $570,272,610. This includes about 5,000,000 of trade dollars that were recoined. The total coinage represents about the total value of the bullion that was purchased.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three $1 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c and $1. Trial bottle free at E. S. Leadbeater & Son's drug store.

Tonic to the System.

For liver troubles and constipation there is nothing better than DeWitt's Little Early Risers, the famous little Pills. They do not weaken the stomach. Their action upon the system is mild, pleasant and harmless. Bob Moore, of LaFayette, Ind., says: "No use talking, DeWitt's Little Early Risers do their work. All other pills I have used gripe and make me sick in the stomach and never cured me. Dewitt's Little Early Risers proved to be the long sought relief. They are simply perfect." Persons traveling find Little Early Risers the most reliable remedy to carry with them. Sold by all druggists.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

FRIDAY EVENING, JAN. 27, 1905.

THAT THE suppression of the divorce is more important than tariff or currency problems was the view expressed by President Roosevelt yesterday to Bishop Doane and a committee of the interchurch conference on marriage and divorce. Bishop Doane delivered a brief address to the President, who replied, saying in part:

Questions like the tariff and the currency are of literally no consequence whatsoever compared with the vital question of having the unit of our social life, the home, preserved. If we have solved every other problem in the wisest possible way, it shall profit us nothing if we have lost our own national soul. One of the most unpleasant and dangerous features of our American life is the diminishing birth rate and the loosening of the marital tie among the old native American families.

At various times during the past thirty or forty years observant men in this country have viewed with alarm the conditions referred to by Mr. Roosevelt, while people of other nations which have been confronted with such issues, have made crusades against the evil. France has been battling with them since the days of the French revolution.

THERE is no argument in favor of levying a tax on sugar brought from the Philippines that does not apply with equal force in favor of a tax on ice brought from Maine, or on rice from Louisiana. The Philippine sugar tax is a brutal extension of the tariff on foreign importations to make it apply to domestic products. It is enforced against helpless people whose territories have been brought under our absolute control. The present high price of sugar should serve to bring with added force to the attention of the people of the United States the iniquity of our attitude toward our island dependencies. It is a poor way, says the Philadelphia Record, to cultivate their loyalty and good opinion by refusing to trade with them except they shall be made to pay for the privilege.

GOVERNOR WARFIELD, of Maryland, created a sensation at the Merchants and Manufacturers' banquet in Baltimore by denouncing political managers and urging the formation by the taxpayers of a non-partisan organization to secure the nomination and election of good men for the City Council. Before Gov. Warfield was elected by democratic votes he was a strict party man, recognizing that politics must be run on party lines; but since his election he has become an "independent" and has opposed many of the democratic plans. His is but another plain case of before and after.

THAT misery loves company is admitted, but that it brings no material comfort is also true. Reports from all over the country tell of the inconvenience occasioned the traveling public by the unsatisfactory service of the electric and other trains caused by the recent blizzard, notwithstanding which the people of Alexandria are as mad now as ever over the delay in connection between this city and Washington.

BISHOP MACKAY-SMITH asserts that 55 per cent. of the voters of Philadelphia did not vote at the last election. The Philadelphia North American, however, says their votes were counted. This is the way elections are conducted in the republican city of Philadelphia whose people are constantly prating about election frauds in the South.

ARKANSAS has an anti-trust law that is even more drastic than that of Texas. No insurance company can do business in the State if it be a party to any rate agreement. No goods made by a trust can be sold in the State.

A MAN in Lynchburg was fined $10 yesterday and sent to jail for striking his mother-in-law. When this was read in this office today a visitor exclaimed, "Great Scott! what will they do with men next?"

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Jan. 27.

President Roosevelt today signed the Alaskan bill after holding a conference with Attorney General Moody and Senator Nelson of the commitee on territories. The measure allows the territory to use the money collected for liquor and business licenses for the purpose of building roads and maintaining schools. Heretofore the money collected from these sources was turned into the general treasury of the Government and Alaska got no benefit from its disbursement.

Officials at the Navy Department this morning deny the report cabled to New Orleans last night from Panama that the Dixie has been ordered to Santo Domingo with 500 marines who have been doing duty on the isthmus. The Dixie has been ordered to the naval station at Guantanamo with 200 marines, and will sail from Colon tomorrow. It is denied that any advices have been received to confirm the report that fighting has broken out in Santo Domingo city, although it is clear that there is some apprehension at the department that there may be such an outbreak.

The House committee on naval affairs today adopted as its programme of naval construction the building of two battleships of the largest tonnage 16,000 tons each. This turns down the administration programme which was a great deal larger at first but which was finally modified to three battleships. The vote in the committee in favor of two ships was 13 to 4 although the democrats were inclined to a programme of one ship only.

An agreement has been reached in the legislature of Washington whereby the long dead lock in the election of a United States Senator from that State to succeed Senator Foster will be broken this afternoon by the seclection of Samuel H. Piles, a prominent attorney of Seattle.

The Panama Canal Commission received this morning cable advices from the isthmus to the effect that not a single case of yellow fever is known to exist in the canal zone, although one suspect is being observed at the Ancon Hospital, near Panama. One death and seven cases of fever on board the cruiser Boston are reported through the commission.

General Corbin reports the death of Contract Surgeon Fred W. Richardson, at Ligao, Albany, P. L., on the 26th, from the effect of the accidental wood alcohol poisoning. The remains will be shipped home April 15. Richardson's home was in St. Paul, Minn.

Wednesday, at 9 p. m., Mme. Chekib, 65 years old, mother of the Turkish minister, died at the Turkish legation, 2101 S street, after a residence in this country for the past four years. She enjoyed the distinction of being the only Turkish lady of high rank in the United States, her late husband at one time being the governor general of Turkey. Her remains will be temporarily interred here and later removed to Turkey, where she will finally rest beside her illustrious husband.

United States Circuit Judge E. Henry Lacombe, of New York, appeared today before the House committee on the judiciary and asked permission to reply to the charges coupled with a demand for his impeachment made to members of the House by letter by two Philadelphia lawyers. Representative Jenkins, chairman of the committee, said that there was nothing before the committee on the matter, and that there was no necessity for the judge to make a statement. The members of the judiciary committee endorsed the chairman's views of the case. "It's a case of a dissatisfied lawyer," said Representative Littlefield. "He has a right to go into a hotel lobby and cuss the judge. If the lawyers want to impeach they must go about it in the regular way." Judge Lacombe will return to New York this afternoon.

News of the Day.

Mr. Thomas Fitzgerald has been promoted to general manager of the Baltimore and Ohio Railroad to succeed Mr. C. S. Sims.

Only slight disturbances attended the elections of members of the Hungarian Diet yesterday. Count Apponyi and Francis Kossuth, leaders of the opposition, were re-elected.

A bill, the result of President Roosevelt's conferences with labor leaders, was introduced in the House yesterday. It provides that there shall be no injunctions in labor disputes until there has been a hearing.

President Roosevelt made a brief address yesterday on receiving Bishop Doane and a committee of the Interchurch Conference on marriage and divorce. He promised to help curb the evil and told the committee of clergy that it outweighs all other questions.

Nearly thirty persons were injured, one probably fatally, when a train that was sent out from Freehold, N. J., to open up the snowbound Mattewan and Freehold division of the Central Railroad of New Jersey, was wrecked yesterday at East Freehold. The accident happened in a deep cut through Brier Hill.

Considerable excitement has been created on the isthmus by the receipt of orders by the converted cruiser Dixie to proceed at once to the Island of Santo Domingo, where fighting has broken out in the streets and become so general that the assistance of the 500 marines quartered upon Empire Hill are considered absolutely necessary by the United States.

It is believed that the freeze Wednesday night in Florida destroyed all citrous fruit on trees, except in the extreme southern part of the State, the total destruction being placed at 300,000 boxes, It is feared that trees in the Jacksonville section are injured, if not killed. It will be impossible to determine this before spring. The fear as to orange trees, however, is confined to the northern section of Florida.

Papers sanctioning the agreement between the Baltimore and Ohio and the Western Maryland railroads as to the Western Maryland crossing the Chesapeake and Ohio canal on its line from Cherry run to Cumberland have been signed by Judge Keedy at Cumberland. It was also announced that until the completion of the Cherry Run line the Baltimore and Ohio will supply the link in the through line to Baltimore for coal from West Virginia to Port Covington, Baltimore.

The President and Mrs. Roosevelt held their second formal reception of the season at the White House last night. The function was in honor of the judiciary. Special guests of the occasion were out in full numbers, but the cold weather operated against the usual large attendance of others invited to the reception. The decorations were simple and confined principally to a display of ferns and potted plants, with cut flowers on the mantels. The music was by the Marine Band.

The Virginia Debt Commission has arrived at Charleston to demand that West Virginia assume a part of the old Virginia State debt.

Twenty-five deaths, due to the storm and the succeeding cold wave, have been reported throughout the east.

Mrs. Cassie L. Chadwick has been adjudged a bankrupt by the United States District Court in Cleveland.

Action looking toward the settlement of the coal miners' strike at Essen, Germany, has been taken.

February McClure's has been received from its publishers in New York and shows a most atractive get up. Its most startling narrative is Lincoln Steffen's damming account of Rhode Island politics, entitled, "Rhode Island, a State for Sale." RayStannard Baker in "Lynching in the North," is no more lenient nor less blunt than when he wrote of the South. Not how to crush the corporation, but how to save it, is the text of an able article by Judge Peter S. Grosscup. The artistic reputation of the magazine is well sustained by the La Farge article on "Allegories" of paintings, with reproductions in tint. Edwin Lefevre begins a serial, "The Golden Flood," and the short stories of this number are all exceptionally good.

The jury in the case of James Chamblin, colored, who has been on trial since Tuesday at Berryville, for the murder of Flora Alexander, his alleged mistress, yesterday afternoon brought in a verdict of murder in the second degree and fixed his punishment at eighteen years in the penitentiary.

RUSSIAN AFFAIRS.

A dispatch from St. Petersburg dated at noon yesterday stated that the aspect of the city was almost normal, and the feeling is decidedly calmer. Several newspapers have appeared. Governor General Trepoff, who received the correspondent of the Associated Press yesterday at the former's head quarters in the Winter palace, manifested complete confidence that the crisis is over and that public order and the safety of the city are assured.

This morning dispatches say that with troops patrolling the streets of St. Petersburg, Moscow, Libau, Odessa, Kieff and other industrial centers of Russia, there were yesterday no serious collisions with strikers, except in Riga, where a London news agency reports a collision between troops and strikers, in which thirty of the latter were killed or wounded.

In Moscow some of the employers are evincing a willingness to make some concessions to their workmen, but there has been no general agreement on that point. In St. Petersburg the return of workmen has enabled several factories to resume operations, and the authorities hope to witness a general resumption there on Monday.

The Russian capital presents almost a normal appearance, and the authorities are confident that the backbone of the strike has been broken. The authorities expect that the failure of the strike in St. Petersburg will have a discouraging effect upon the workmen in other cities to which the troubles have been spreading, and believe that there is no longer danger of a complete suspension of all the industrial concerns of Russia.

Dispatches received at London yesterday evening indicate that the St. Petersburg strikers have been cowed into submission by the despotic policy of the grands dukes, and that order once more prevails there, the agitation for reform having failed for the present. One of the dispatches says: "It may as well be recognized at once that, considered as a movement which was to accomplish a revolution out-of-hand, or even to compel the granting of a constitution by a pacific manifestation, the agitation completely failed."

"The Czar and Czarina, with their children, the Dowager Empress and Grand Duke Michael Alexandrovitch, remain at Tsarskoe. Grand Dukes Vladmir, Boris, Michael Michaelovitch, Constantine, and Andrew have returned to St. Petersburg, and Grand Duke Alexis to his palace on the Moika Canal. During the day several members of the imperial family were seen driving on quays of Nevski without escort, except the street patrol, just as if nothing out of the ordinary had been happening in St. Petersburg."

FIGHTING RENEWED.

A dispatch from General Kuroki's headquarters dated yesterday says that a heavy and continuous artillery roar has been heard to the westward all day. Apparently the largest engagement since October is being fought. Reports are to the effect that a Russian force has crossed the Hun river on the Japanese left wing. A Japanese force advanced against the Russians, making an attack.

The fighting must be attended with great suffering from the cold. A snowstorm began on Monday, following a long period of remarkable mildness. The temperature is below zero, and the plains are covered with several inches of snow. The ground is too hard for rapid trenching.

The London Daily Telegraph's St. Petersburg correspondent asserts that General Kuropatkin has telegraphed to the Emperor that his offensive power is seriously hampered by the obstinate reluctance of his troops from the European provinces to advance against the enemy. While the Cossacks and Siberians are full of dash, the Europeans argue that now Port Arthur has surrendered there is no object in continuing the war.

The London Daily Telegraph's Tokio correspondent says that Japan is making enormous war preparations. Besides immediately laying down a battle-ship of 19,000 tons at Yokosuka and the contemplated building in Japan of a 12,000 ton cruiser, large additions to her torpedo and submarine flotillas and two cruisers have already been started building at Kure. All future ships will be heavily armed, but guns below the 10 inch will be discarded. The fifth army is being organized under command of Lieut. Gen. Kawamura, the correspondent says, who is calling out more reservists. Conscripts are expected. All men under forty years of age are being drilled. The blockading of Vladivostok is imminent. A fleet of cruisers is leaving for the south, and Admirals Togo and Kamimura will follow with battleships. Three cruisers and several torpedo-boat destroyers are in the neighborhood of Borneo. A division of troops has been landed in Formosa. It is now evident that the cruiser Takasago was lost. The names of her crew, from the commander down, are now officially published as killed. Negotiations continue for the purchase of a Chilean cruiser. Fifteen new submarine boats will be provided this year. Ten recently arrived under control of American instructors.

Rivers and Harbors Bill.

The rivers and harbors appropriation bill, carrying $14,902,933.41 cash and $16,734,657.63 expenditures authorized, continuing contracts, a total of $31,637,591.04, was completed yesterday and will be reported at once.

From the total of cash appropriated is to be deducted the sum of $2,188,942, the unexpended balance of the appropriation carried in the emergency act of last year. Only a few new project are provided for.

For the Potomac river at Washington $50,000 is given, and an additional item of $10,000 is contained in the measure for improvements in the Potomac below Washington. Farther down the stream Occoquan and Carters creeks are provided for, receiving, with the York river Mattaponi and Pamunkey rivers in Virginia, $28,000.

No Pity Shown.

"For years fate was after me continuously," writes F. A. Gulledge, Verbena, Ala. I had a terrible case of Piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for Burns and all aches and pains. Only 25c at E. S. Leadbeater & Sons' drug store.

Speedy Relief.

A salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for Piles and skin diseases. Dewitt's is the only genuine Witch Hazel Salve. Beware of counterfeits, they are dangerous. Sold by all druggists.

McCUE TO HANG.

As was stated in a dispatch from Richmond to the Gazette, the Court of Appeals yesterday refused to grant writ of error and supersedeas upon the supplementary petition of the attorneys of ex-Mayor Samuel J. McCue of Charlottesville. A half hour later a newspaper man called upon the condemned man in his cell at the Charlottesville jail and found him writing a letter to his aunt, Mrs. Marshall Dinwiddie. In reply to the query if he cared to hear the news from Richmond, McCue said: "Well, I suppose they refused the petition for a hearing."

He was told that the court had refused it, and for a moment he was silent, his lips twitching nervously. Then he said: "Well, I will get justice in heaven."

He wept for a while, and then, turning to the letter, which was in the nature of a final communication, he read it to the visitor, interrupted at times by his tears. The letter was constructed largely of Scripural quotations and couched in affectionate and religious phrases. It made no disclosures, and was more in the form of a homily than a communication. This read, he repeated his frequent phrases that he did not want anything he had said reported to the newspapers. Throughout the interview the prisoner's manner was that of a man not surprised by the terrible news, although he has within the week expressed the expectation that a new trial would be granted him.

The failure of the court to grant the petition shatters McCue's last hope, for Gov. Montague, when he granted a respite to him announced that he would take no further action in the case, and there is every reason to believe he will be hanged two weeks from today. The court declares that the evidence points with unerring certainty to McCue as the man guilty of a most atrocious homicide.

Judge Keith's opinion, in which the members of the court concurred, is summed up as follows: "In obedience to mandate of statute, and in strict accordance with established precedent, having given careful consideration to petitions and record, and being of opinion that no error is shown to prejudice of accused, we abide by order entered at former day of the term, and deny writ of error."

As to the merits of the case, the opinion says:

"No one can read the petitions for a writ of error in this case without being satisfied that the accused had every advantage that could accrue to him from the efforts of astute and able counsel. The evidence precludes every reasonable hypothesis of innocence, and points with unerring certainty to the guilty man The record discloses a homicide remarkable only for its atrocity, save in the fact that it was committed by a member of the profession of the law, who had been intrusted by his fellow-citizens with a responsible office, and that the victim was his wife."

Concerning exception made regarding qualifications of jurors and acceptance of one who said he had read newspapers and formed an opinion based on reports, the opinion says: "The trend of recent decisions is in the direction of limiting, rather than extending, the disqualifications of jurors by reason of mere opinion. Whenever the mind receives has an effect upon it. By the diffusion of education the State hopes to create a higher citizenship and to find the means of repressing crime and vice; but if the courts take an extreme position upon this subject and hold that every opinion shall work a disqualification for service as a juror the administration of justice will be confided not to the most intelligent, but to the most ignorant of our citizens. No man can read the rigid examination to which this juror (Stockdell) was subjected without being impressed by his fairness, with his desire to deal justly by the prisoner, and with his conscientious purpose to discharge his duty as a citizen."

Touching the alleged inconsistent statements made by "Willie" McCue, son of the accused, the court says that the law is so comprehensive that it warrants action of the trial court in the proceeding. Referring to the reading of the newspapers by the jury, the court says:

"The case under consideration is far stronger than those cited. The court, in the presence of the prisoner and his counsel, at the instance of the jury, permitted them to have access to newspapers under the rules which it prescribed. It does not appear that the limits imposed by the court were exceeded or that the prisoner was prejudged by what occurred. But however that may be, he had no right to sit mute, prepared to abide by the results if they were favorable, or to make objections if they were averse. We think it the safer and better practice to exclude newspapers from the jury."

CONGRESSIONAL.

In the Senate yesterday the army appropriation bill was passed, after considerable significant debate. The general staff law was severely criticised during an incisive speech by Senator Hale, who said its effect had been to strip the Secretary of War of real administrative power and to centralize that power extensively in army officers. The provision affecting the pay of retired army officers on duty with the militia of States was modified so as to be effective only for future assignments. It will not include Gen. Miles, provided the Senate provision is agreed to in conference. The Senate met at noon today. At 1 o'clock the trial of Judge Swayne was resumed.

In the House the agricultural appropriation bill was considered, but the debate turned principally on the topic of restricting the railroads in the matter of freight rates. As if impatient to deal with the subject, the Hepburn bill, although not before the House and which probably will not be for several days, formed the basis of the discussion. A feature of the debate was the statement by Mr. Williams, of Mississippi, that the democratic party was committed on the subject of revision of rates to views such as were expressed by the President in his message to Congress which, however, he characterized as democratic doctrine. Consideration of the agricultural bill had not been concluded when the House adjourned.

Liberal Victory.

London, Jan. 27.—The election at North Dorset, for member of Parliament, has resulted in a victory for the liberals. Mr. Wills the liberal candidate, polled 4,239 votes, while Mr Baker, the conservative, received but 2,330. The result came as a surprise, as at the last election the conservative majority was 540. The result emphasizes the fact that the agricultural workers are opposed to the protection idea.

Today's Telegraphic News

CONDITIONS IN RUSSIA.

St. Petersburg, Jan. 27.—The number of workmen who returned to work was increased this morning. The absence of resolute leaders for the strike movement has resulted in a state of confusion in the minds of the workers who are accustomed to be driven and, as a result, are totally unable to organize themselves independently. It is learned this morning that nearly half of those who were wounded in Sunday's massacre have since died at the hospitals. The total number of dead now exceeds seven hundred. It appears that the bullets used by the troops had old cases, and exploded in the bodies of the victims, precluding any possibility of recovery from the wounds.

The Official Messenger, this morning, asserts that the strikers in the city yesterday returned to work in considerable numbers. Performances at the theatres last night, it asserts, were conducted under normal conditions and order was not disturbed.

The councils of the Institute of Mines and the Institute of Civil Engineers have passed resolutions of sympathy with the demonstrators,

Word was received from Riga this morning that students had broken into the theatre Russ, there, last night, and stopped the performance just after the curtain rose.

A dispatch from Helsingfors, Finland, reports that discord occurred there also during the night. In a collision between paraders and the police, one constable was killed and many strikers were wounded. Many persons were injured.

Libau, Russia, Jan. 27.—The strikes spread to the Benner workingmen this morning. There were some disorderly scenes in the streets this morning, but none of great consequence. The harbor remains quiet.

Government officials expect that the third Baltic fleet, which is being prepared here for sailing for the far East, is now nearly ready to sail. They admit that if the strike spreads to the dock yards delay in departure of the fleet is inevitable.

Moscow, Jan. 27.—The strike situation here has taken on a more menacing look. This morning the employes of nineteen more factories went out. The men are demanding a ten hour day from Monday to Friday, a five hour day on Saturday, a holiday on Sunday, twenty per cent increase in wages and other concessions. It is understood the striking of these workmen is not influenced by any political considerations.

Berlin, Jan. 27.—Unconfirmed telegrams from the Russian frontier state that severe fighting has occurred between workmen and troops at Rodam, Poland. Two battles have occurred. In the first six officers, 38 soldiers and over a hundred workmen are reported to have been killed and many persons wounded. In the second fifty workmen were killed and many workers and soldiers wounded.

Movements in the Far East.

London Jan. 27.—It is reliably stated in diplomatic circles this morning that General Kuropatkin's offensive movement, reported from General Kuroki's headquarters, is due to orders which he has received from St. Petersburg to take this step to create a diversion and draw attention from the internal Russian affairs. If this statement is authentic, there is every probability that the forward movement at the Shahke will be an extensive one, despite the bitter cold and the consequent suffering of the soldiers.

St. Petersburg, Jan. 27.—The Czar has sent six sacred pictures to the third Baltic squadron at Libau, which, it is now announced, has arranged to sail tomorrow. His majesty also sent a telegram explaining that he cannot personally bid God speed to the officers and men The announcement that the vessels will sail tomorrow is given no credence here.

St. Petersburg, Jan. 27.—General Kuropakin, reporting on the resumption of the offensive by the Russians, to the south of Mukden, says in a right flank advance two hamlets were occupied and 200 cattle captured.

Berlin, Jan. 27.—The Lokal Anzeiger has a dispatch from Mukden stating that General Kuropatkin's advance and the consequent fighting, have assumed the proportions of a general engagement. There have been heavy losses on both sides. The battle, the dispatch says, is being most hotly fought in the centre.

Hanged.

Winchester, Va., Jan. 27—The first legal execution in Clarke county occurred at 10 o'clock this morning at Berryville, when Benjamin Lipkins was hanged for the murder of Richard Ellison. The execution took place under a tent, which Sheriff Smallwood erected over the scaffold and was witnessed by about a hundred persons. Lipkins was resigned to his fate, and met death calmly. On the scaffold he prayed and admitted the murder. Although this was the first legal execution in Clark county history, there have been several lynchings, and within the past few months there has been an unprecedented outbreak of crime. A week ago four murderers were confined in the Berryville jail. Of these, Joseph Copenhaver was sent this week to the penitentiary for twelve years for the murder of his wife. Last night Benjamin Chamblin was found guilty of murder of his mistress, and sentenced to eighteen years in the penitentiary. Carl Carlisle is awaiting trial for the murder of aged John Krombly.

Annapolis, Md., Jan. 27.—Julius Cooper, colored, was hanged here this morning for the murder of George Harris, July 14. The two men quarreled about a woman, and Cooper shot Harris in the abdomen, death resulting instantly.

Fire in New York.

New York, Jan. 27.—A serious fire is raging on the North river front. The flames started in the Stanley soap factory, at the Thirtieth street, shortly after noon, and after consuming that building jumped to the stables of the firm on the opposite side of the street. These were also consumed. The flames also spread to the Dunbar lumber yard and box factory and there is little hope of saving it. It is reported that two firemen have been injured. As the fire started during the noon hour, there were but few persons in the soap factory and it is believed there has been no loss of life.

Diamonds Stolen from Residence.

McKeesport, Pa., Jan. 27.—The residence of Chris Weiser, a wealthy coal operator at Dravo, eight miles south of this city, was robbed last night as Mrs. Weiser played the piano and sang. Entrance was gained to the building while the three women, the only occupants of the house, were after a bucket of water, and the robbers escaped while they were gaily singing in the parlor. Over $1,500 worth of diamonds were taken. Mr. Weiser left yesterday for Buffalo, and is thought to be attending the coal operators' convention at Toledo.

The Market.

Georgetown, Jan. 27.—Wheat 95a$1.14.

Milk was $50 a Quart.

Antlatic City, N. J., Jan. 27.—To provide milk for his one-year-old son, George A. Bourgois, one of the best known attorneys in the State yesterday paid $200 for two quart bottles of milk and the same amount of cream, or at the rate of $50 a quart bottle. Mr. Bourgois lives in Ventnor, which was completely cut off from this city. On calling up a milk depot the lawyer found that it would be impossible to deliver milk. He then hired Archie Burrell to get the milk.

Snowdrifts ten feet high in places blocked Burrell's horse and carriage. At times he was obliged to drive to the beach, and his journey, ordinarily three miles, proved to be three times that distance and occupied more than four hours. But he reached the depot and delivered the milk.

Arrest of Princess.

Berlin, Jan. 27.—The Princess Alexandra of Isembourg and Budingen has been arrested at Romanshor, near Frankfort on-the-Main, charged with fraud. The Princess Gertrude Philipine Alexandra, is the sister of the reigning prince of Isembourg, and Budengen. She was born in 1855. The Princess Alexandra has been twice married and twice divorced. In 1875 she was married to Prince Adelbert of Isembourg. They were divorced in 1877 by decree of the Grand Duke of Hesse. In 1878 she was married to Robert Baron de Pagenhardt, from whom she was divorced in 1899.

Hungarian Elections.

Buda-Pesth, Hungary, Jan. 27.—Up to midnight last night, results had been received from 268 districts which showed that in the recent elections to the Diet the government had lost 38 seats. Premier Tisza has been elected from Buda-Pesth but with a majority of only 57 votes. It is stated a new cabinet will shortly be formed by either Count Andrassy or M. Schell, who are leading the antagonists to reform in parliamentary regulations. The Kossuthists have gained 34 seats.

Illness of a Prince.

Berlin, Jan. 27.—Prince Eitel Frederick, Kaiser William's second eldest son, who is ill with inflammation of the lungs, at Potsdam, is worse. He passed a bad night, and had a high fever. His temperature this morning is 103, his pulse 112, and his respiration 28. The inflammation is extending to the greater part of his left lung. His mother, the empress, was at his bedside all night.

The Dodge-Morse Case.

New York, Jan. 27.—As the result of the investigation of District Attorney Jerome into the Dodge-Morse case, the grand jury this afternoon returned a blanket indictment covering six persons. The names of two of them were made public. They were former Judge Edgar T. Fursman, of Troy, N. Y., who was engaged by Charles W. Morse to represent his wife in the proceedings which set aside the annullment of the divorce, and Abraham Hummel, counsel for Charles F. Dodge. Fursman is charged with conspiracy and Hummel with subornation of perjury and conspiracy.

Crowd Dispersed.

Rome, Jan. 27.—At Milan last evening a crowd of 5,000 gathered and were addressed by several deputies. After the meeting the crowd marched en masse to the Russian consulate, but before they reached that edifice were dispersed by the police. A similar demonstration is to be held in Rome on Sunday.

Invitation to Czarina.

London, Jan. 27.—It is reported Queen Alexandra has sent an invitation to the Czarina of Russia to come to England as her guest until the trouble in Russia blows over. The Czarina replied that her infant son could not be moved and she would prefer to remain with him.

New York Stock Market.

New York, Jan. 27.—The stock market this morning opened strong at general moderate advances and in some cases with decided gains. The temper of traders, however, was somewhat conservative in view of the sharpness of the recovery from the earlier bear depression of the week. Scattered issues showed decided strength, but the general list, after initial dealings, sold off fractionally.

TELEGRAPHIC BREVITIES.

Three deaths were caused today by a Swickley branch train on the Pennsylvania road running down a sled at the Cowansburg crossing.

When the 12:30 p. m. ferry boat left Kaighn's Point, Camden, N. J., for Philadelphia, a sick woman was wheeled aboard. She died on the trip across the Delaware river. It was found she was a victim of smallpox. The ferry boat has been quarantined.

The armored cruiser Maryland, built by the Newport News Shipbuilding Company, is having her speed trial over the Cape Ann course today. The weather conditions are very favorable. The sea is smooth, and the wind, which is from the northeast, is light. The Maryland must make an average of 22 knots an hour over the course. She finished in 5 minutes and 10 seconds less than the prescribed time.

A southbound passenger train and a northbound freight on the Nashville, Chattanooga & St. Louis Railroad came together at midnight in the northern suburbs of Tullahoma. The two engineers, one fireman, and a colored porter are known to be dead. Their bodies are still in the wreckage. There are six known injured passengers and two employes, none seriously.

In Trenton, N. J., today Chancellor Magie filed an order in the court of chancery appointing Dick S. Ramsay, of Brooklyn, and Frederick K. Day, of Elizabeth, receivers of the Standard Rope and Twine Company, which was incorporated under the laws of New Jersey November 8, 1895, with $12,000,000 capital stock. The order is accompanied by an injuction restraining the company from continuing business.

President John M. Hall, of the New York, New Haven and Hartford Railroad, died suddenly at his home in New Haven, Conn., at 9:30 this morning.

Do Not Suppress a Cough.

When you have a cough do not try to suppress it, but remove the cause. The cough is only a sympton of some disease, and the disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructed the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually and permanently cures the cold as well as the cough. For sale by Gibson & Timberman and W. F. Creighton & Co.

DIED.

The funeral of the late THOMAS WALSH will take place from St. Mary's Church at 3 p. m. January 28, 1905.

Virginia News.

Judge Abram S. Watts died yesterday at his home, in Portsmouth, after a long illness, aged 74 years.

Dr. Edward Cassiday died in Philadelphia yesterday, aged sixty years. He was a native of Loudoun county.

Thomas Williams, a well-known resident of western Frederick county, dropped dead Wednesday night at his home at Chambersville of heart disease.

Thomas Williams, a hermit and cave dweller, dropped dead Wednesday in the yard at the home of Mrs. Elizabeth Sherman, in Frederick county, aged 58 years.

Frank W. Anderson, who for many years had charge of the Virginia Navigation Company's wharf, in Richmond, was found dead there yesterday of heart disease. He was a Confederate soldier.

A cylinder exploded on a Norfolk and Southern passenger steamer in Pamlico Sound during the blizzard Wednesday night, and blew a hole in the bottom of of the steamer. Twenty-two passengers had narrow escapes.

Mrs. Lucy N. Howard, daughter of the late Thomas Nelson, who owned the famous old Nelson house at Yorktown, which Cornwallis used as his headquarters, died at Grafton, York county, Wednesday. She was 76 years old.

The Public Ledger, one of the evening newspapers of Norfolk, has changed hands, S. L. Slover and Harvey L. Wilson, of the Newport News Times-Herald, being the purchasers. It is understood that the sum involved in the transaction is about $50,000.

Mr. John H. Lemoine, a prominent citizen and merchant of Ivandale, Richmond county, died Wednesday night, aged about fifty-nine years. The deceased was a gallant ex-Confederate soldier, being a member of Company B, Fortieth Virginia Cavalry.

The female seminary at West Point was burned Wednesday night in the midst of a furious snowstorm. The girl pupils who were in the building were rescued, none of them being hurt. Much of the furniture was saved. No one knows the cause of the fire.

Messrs. Willard and Swanson, candidates for governor, have both made statements of their positions on the employers' liability act. Mr. Swanson states that he was an original supporter of the measure and strongly favored the principle. Mr. Willard says he voted against the measure only when his amendment making the liability act general was defeated.

Miss Isabelle Frances Booker and Dr. Daniel Henry Bedinger Morgan, of the United States Navy, were married in Winchester yesterday evening. Dr. Morgan, although only 31 years old, was recently retired on account of ill health. While undergoing treatment at Winchester Memorial Hospital he was nursed by Miss Booker, who was employed at that institution. They fell in love and arranged to marry as soon as his health permitted.

Lieutenant Carleton A. Uber, U. S. N., retired, died at his home at Falls Church, Fairfax county, Tuesday evening, and was buried in the Arlington National Cemetery with military honors this afternoon at 2 o'clock. A detachment from the Washington navy yard acted as a military escort. Lieutenant Uber was a native of Maryland, and served in the volunteer army during the early part of the civil war. He entered the naval establishment in March, 1863, and reached the grade of past assistant engineer in March, 1872. He was retired many years ago.

The statutory limit of damages was awarded to Mrs. Naomi K. Sheridan, of New York, in Norfolk Wednesday by Judge Waddill, of the U. S. Court, as damages for a broken leg. While on her yacht Diana at Norfolk last May, the Petrolia, a launch belonging to the Standard Oil Company, backed into the Diana, and throwing Mrs. Sheridan against the cabin, broke both bones of her right leg. She walks with crutches. As the United States statutes limit the damages of a libel to the value of the vessel, the court awarded the plaintiff $3,500.

Can Build the Road.

There is now nothing to prevent the Richmond and Chesapeake Bay Railway Company from being incorporated. By its decision in Wheelwright and others vs. Commonwealth, from the State Corporation Commission, the Court of Appeals yesterday reversed the order entered by the commission and remands the case that the commission may issue the charter applied for. This is the company in which Mr. Gould is interested that proposes to build a line of railroad, to be operated by either steam or electricity, from Richmond to Ashland and thence to a point on the Rappahannock river, near Tappahannock, and crossing the Rappahannock river to have its terminus on the Chesapeake bay at some point within the county of Northumberland or the county of Lancaster.

A Big Coffin.

Robert R. Rogers, a railroad man, died at his home in Buckton, Warren county, yesterday after a brief illness. He was about 35 years old and was an express messenger on the Southern Railway. He weighed 350 pounds, and it was necessary to send to Baltimore for a coffin large and strong enough to hold his body. He leaves three brothers, whose combined weight is 1,000 pounds.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

FRIDAY EVENING, JAN. 27, 1905.

Local Matters.

Sun rises tomorrow at 7:10 and sets 5:16. High water at 12:55 a. m. and 1:29 p. m.

WEATHER PROBABILITIES.—For this section partly cloudy and warmer tonight. Saturday fair; fresh southwest to northwest winds.

River Notes.

The steamer Harry Randall, which arrived early Wednesday morning from landings on the lower river, did not go out on her scheduled trip that afternoon, the managers of the line having determined to withdraw her for the present on account of the ice in the river. There is now no communication by river with the lower country.

A pile-driving machine and a force of wharf builders are at work on the Norfolk and Washington line pier at the foot of Prince street, putting it in thorough order for the opening of business in the spring and summer.

Work is being hurried as fast as the weather conditions will allow on the Washington-Alexandria ferry wharf at the foot of 7th street, Washington, in order to have it ready for service by the 4th of March. The pier is being thoroughly rebuilt from the water's edge up.

The heavy northwest gale of yesterday and Wednesday night blew the water out of the river and the tides were three or four feet lower than they usually are.

The spar buoy on Greenway flats, below Marshall Hall, has been broken off at the water's edge, apparently by having been struck by a passing vessel. At high water the buoy will be completely hidden from sight.

Capt. William C. Geoghegan, master the steamer Anne Arundel, on the route between this city and Baltimore, has been presented with a handsome oil painting of his vessel by the officers and crew of the steamer.

The steamer Anne Arundel, from Baltimore and river landings, arrived up yesterday. She reached here on her return trip about 11 o'clock last night and left at 6 this morning.

The steamer Estelle Randall is still running on the Glymont route.

The steamer Washington from Norfolk due here at 6:30 this morning, did not arrive until about noon.

It is again said that a new marine railway will be constructed early in the spring at Dean's boat yard, near the old canal locks, and will be ready to haul out vessels before the busy season at the boatyards set in. The new railway will be 156 feet long.

A Disappointment.

A large crowd, notwithstanding the biting cold, assembled at the Opera House last night to welcome Hon. William Jennings Bryan and to hear his lecture on "The Value of an Ideal." Mr. Bryan late yesterday afternoon telegraphed that he would fill his engagement in this city last night, and that he failed to do so was through no fault of his own, as he was a passenger on a snow bound train which was on its way from New York to Washington but which was delayed for hours. When the train finally reached Washington it was sidetracked some distance from the Sixth street station in that city, and Mr. Bryan left the train and walked to the depot, where he took a W. & O. train just as it was pulling out of the station. Upon his arrival here at 9:15 o'clock the committee designated to meet him had come to the conclusion that he could not get here, and as there was no vehicle in sight, he walked to his destination. He proceeded along the station and upon arriving at the corner of King and Pitt streets entered Mr. Edgar Warfield's drug store where he met several gentlemen who heartily greeted him. The crowd which had gathered in the Opera House had in the meantime been dismissed, it being assumed that Mr. Bryan had been unavoidably delayed. A telephone message was sent to the residence of Mr. J. M. Hill announcing Mr. Bryan's arrival and later he was escorted thither. He left on the 9:40 o'clock train for Washington, after expressing his sincere regret at being unable to fill his engagement. Mr. Bryan before leaving said he would make another effort to lecture in this city in the near future, and expressed the desire that all money not called for be turned over to the ladies having the lecture in charge, as he would accept none of it.

While a guest at Mr. Hill's residence Mr. Bryan was profuse in his regrets at being unable to lecture here. The handsome bouquet which had been placed on the stage at the Opera House was removed to Mr. Hill's home, where it was formally presented to Mr. Bryan, who accepted it and in doing so tendered many thanks to the ladies.

The money for the tickets sold will be returned in a day or two.

Attacks her Divorce.

Mrs. Frank Drexel Mullan, now of Washington, formerly Mrs. Alexander Payson Knapp, well known in Baltimore social circles, has come into publicity again through a suit for divorce filed by her first husband in Baltimore. This action specifically attacks the legality of the decree of divorce granted Mrs. Knapp in Sioux Falls, S. D., August 30, 1903. United States Senator-elect Isidor Rayner and his son, William B. Rayner, are the attorneys for Mr. Knapp, and they declare they will urge to the uttermost their contention that the South Dakota decree is illegal because property rights are concerned, Mr. Knapp being an extremely wealthy man. Mr. Knapp asks for the custody of his four children. Senator Rayner says that in similar cases both the New York courts and the United States Supreme Court have declared South Dakota decrees invalid. In view of the fact that the defendant has married again, the case is complicated. Mr. and Mrs. Mullan are well known in this city where they lived immediately after their marriage. They removed from Alexandria to Washington early last year.

Passing of the Polar Wave.

The backbone of the blizzard which settled over a large portion of the country last Tuesday night began to relax its grip last night, and the heavy flaws of wind which had prevailed for about 36 hours were no longer in evidence. The temperature, however, was still low, and considerable ice formed, the river this morning being covered by a compact sheet of heavy ice from shore to shore. The mercury in the thermometer stood at 16°, but as the day advanced as it rose to 36° and the weather became much milder.

The Electric Railway.

As stated in the Gazette of that day, a report was current yesterday that the Pennsylvania Railroad Company had disposed of its holdings in the Washington, Alexandria and Mount Vernon electric line. It is now reported that control of the property has passed to interests represented in the Capital Traction Company, of Washington. It is impossible to either confirm or refute the story in Washington or Philadelphia, though the reply of President King to an interviewer would seem to give color to the news which had been circulated in this city. The reason assigned for the sale of the Pennsylvania holdings is that the electric road will be required in the next year or two to expend about $250,000 in betterments on account of the new highway bridge and double tracks and that the parties now in control would not be able to meet this outlay. This fact has been recently made more apparent by the loss of the traffic between Washington and St. Asaph amounting to $35,000 a year. The Pennsylvania people did not care to assume control, but were satisfied to have control pass into other hands.

Among the reports current here today was that the deal for the purchase of the electric road was being engineered by Mr. C. P. King, president of the road, and that he was backed by Philadelphia capital. The report denies that the Washington Traction Company has anything to do with the deal. It is stated by some of the Alexandria stockholders that they have sold their scock in the road, but in whose interest they decline to say. It is also said that Lieutenant Governor Willard will figure in the new management. Other reports are in circulation, but when investigated they proved to be unfounded.

Froze to Death.

An elderly colored man named Lewis was frozen to death about four miles below this city on the electric railway last night. The old man was a blacksmith by occupation, but of late had been unable to work and had lived in a small cabin. The authorities of Fairfax had occasionally furnished him with the means of sustentation. It is supposed that Lewis, having nothing to eat, started toward a house in the neighborhood for the purpose of making his wants known, and was overcome by the cold. This morning he was found dead with evidences of parts of his body having been torn by dogs. The deceased is said to have been 90 years old. He had for a long time been a cripple He refused to enter the Fairfax poor house when arrangements were made for his reception in that institution.

Selected as an Expert.

Mr. Glenn Brown has gone to St. Paul, Minn., in connection with business relating to the Roman Catholic Cathedral to be erected there. He has been selected as the architectural expert to advise the executive committee in charge of the building of the new cathedral. The committee has also decided to select plans by a limited and mixed competition, Mr. Brown being engaged to assist in going over the plans, suggesting the good points and weak spots of the various plans submitted for acceptance. Architects who will be asked to complete have not been chosen, but will include the leading men in the profession in the country. Mr. Brown formerly resided in Alexandria.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

William Robinson and Malkizer Thomas, both colored, arrested by Officer Knight on suspicion of stealing shoes from P. M. Bradshaw, had their case continued.

Robert Williamson, colored, arrested by Officer Roberts charged with disorderly conduct, was fined $5. Rufus Robinson, colored, arrested by the same officer on a similar charge, was dismissed.

S. R. Taylor, colored, charged with forgery, was dismissed.

Case Dismissed.

The case of S. R. Taylor, colored, charged with negotiating a loan of $200 from a building association under false pretenses, was dismissed by Justice Caton today. The accused stated that the women with whom he had lived had told him that they owned their home and would deed it to him if he would pay their debts and take care of them. He then said that he had had the deed prepared and that the women had signed it.

The above case has given rise to a false report that a young white man had secured money from a building association under false pretenses.

A Church Claim.

Depositions were taken today at the law office of Messrs. Norton and Boothe in the case of the claim against the government for $5,000 damages for the occupancy of and damages done to St. Paul's Church by federal soldiers during the war. The church, it will be remembered, was used as a federal hospital during the war. The government was represented by Mr. M. M. Faust, assistant general counsel before the Court of Claims, and the church by Mr. J. St. Clair Brookes, of Washington.

The Schools.

In a card sent to this office today the teachers of Washington school say:

"We deem it necessary that you should be informed that the pupils of this school were not given a "holiday" yesterday, but were dismissed on account of the furnaces not being sufficient for such a day, although the janitor worked faithfully to make them such. You surely must recognize the great responsibility resting upon us, and we feel all reflections made upon the school. You are not aware that the average temperature is about 55 degrees, and yesterday it fell below that; hence, the pupils were wisely dismissed."

Death of Old Resident.

Mr. Thomas Zimmerman, an old and respected resident, died at his home on Duke street, near the Stone Bridge, this morning. He had recently been suffering from pneumonia. The deceased was 66 years old. He leaves a widow and six children—four sons and two daughters. Mr. Zimmerman was a butcher by occupation.

Hunt Club Ball.

All arrangements have been completed for the annual hunt club ball of the Cameron Run Hunt Club to be held in McBurney's Hall tonight. A large number of visitors from a distance are expected, and the ball will be one of the main social events of the season.

Mr. James Tennesson, jr., was painfully scalded by escaping steam from the heater in the Opera House last night.

Personal.

The engagement is announced of Miss Elizabeth Lloyd Lee, daughter of Mrs. Cassius Francis Lee, of this city, and Mr. George Garr Henry, of Morristown, N. J. The wedding will occurr at Easter.

Mrs. Julian T. Burke yesterday evening entertained a number of her friends at a reception at her residence on Prince street, at which she was assisted by her sister-in law, Mrs. N. P. T. Burke.

Mrs. Eleanor Howard, of Alexandria, is a guest at Col. R. P. Chew's. Mrs. Howard is a sister of Mrs. Chew.—[Charlestown, W. Va., Free Press.

Mr. A. D. Brockett has returned from New York. Mrs. Brockett is visiting friends in Philadelphia.

Miss Marshall, of Louisville, Ky., and Miss Maloney, of Lynchburg, are visiting Miss Garrett on north Washington street.

Gen. G. W. C. Lee is reported as being quite indisposed at "Ravensworth," Fairfax county.

The Junior Card Club held their meeting last night a Miss Edith Ramsay's, she and Miss Mittie Herbert being the hostesses. The prizes were won by Miss Elsie Danenhower and Mr. Milton French.

The Railroads.

The underground trolley wires on Fourteenth street, in Washington, having been freed of ice and snow, yesterday evening the first train from this city arrived at the Washington station at about 3:30 o'clock. The train left on its return at 3:40 and from that time the trains were run about on time. The early trains today were running a little late, but subsequently ran on time.

The steam trains are arriving and departing as usual. Most of them, however, have been behind schedule time.

Corporation Court.

[Mr. J. M. Johnson presiding.]

The case of the Romano Ooletic Stone Co. vs. J. W. Chauncey came up in the Corporation Court today, Mr. J. M. Johnson, by consent of all interested, acting as judge. The case was removed from a justice's court and grew out of a claim for damages for $100 on account of the breaking of some stone. Mr. E. B. Taylor represented the plaintiff and Mr. G. L. Boothe the defendant. The jury returned a verdict for the plaintiff.

Found Dead.

David Green, an elderly colored man, was found dead in a chair at his home near the canal basin yesterday evening. The deceased had been indisposed for a long time. It was supposed at first that he had frozen to death, but subsequent investigation did not show this to have been the case.

Mass Meeting.

A mass meeting in the interest of organized labor will be held at the Opera House tomorrow night under the auspices of the Alexandria Trades Council. Members of Council and others have been invited to occupy seats on the stage.

LOCAL BREVITIES.

Briscoe Cheeks, colored, aged 51 years, died at his home, 503 Franklin street, last night.

Mr. J. D. Knight has been given the contract for building a new boiler and engine house at the Corby bakery on north Lee street.

A strange negro stole a pair of shoes from the front of Bernheimer & Co's store, southwest corner of King and Lee streets, yesterday.

Two colored employes on the double tracking work of the Washington-Southern Railroad became involved in a quarrel Monday night over a woman near Cherry Hill below Accotink. One of the men drew a pistol and shot the other, killing him instantly.

Conrad Meyer, who was seriously hurt in an electric-car accident near Alexandria last September, and who went to King George county to recuperate, as soon as he could leave the hospital in December, has so much improved that he is able to attend to business again.

Charles L. Blanton, for many years a clerk in the office of the supervising architect of the treasury in Washington has been suspended pending the outcome of his trial in Missouri on the charge of accepting money for decisions as to sites for federal buildings. Mr. Blanton lives at Falls Church.

Thomas Wood, thirty-five years old, living at Belair, Alexandria county, fell on the slippery sidewalk near the gas plant in southeast Washington Wednesday night and sustained a fracture of his left leg. The injured man, who is employed at the gas plant, was taken to Providence Hospital for treatment.

FRIDAY EVENING, JAN. 27, 1905.

A New Departure.

What is regarded as a decided departure has been made by the faculty of the University of Virginia in determining to recognize to a larger extent the work of certain other accepted colleges in all of its academic and engineer degrees. In giving the bachelor of art degree hereafter, tickets made in other colleges of good standing will be allowed to count to the number of seven. Students who have made three or four tickets elsewhere will not be compelled in the future to take them over again at the University of Virginia.

However, no matter how many courses they have completed before entering that institution, they will have to complete at least three before being awarded the B. A. degree.

Suit for Divorce.

Proceedings for the annulment of marriage were instituted in the District of Columbia Supreme Court Wednesday by Ruth Lewis, through her father, Andrew J. Johnson, against Herbert Lewis, jr. It is alleged that the time of the marriage, December 13 last, the complainant was only fifteen years old and that, in procuring the marriage license, the defendant represented that she was eighteen years of age. It is explained that the couple first met at River View in August last. Subsequently, the girl's parents refused to permit the defendant to call upon her. Unlawful coercion is charged, and the complainant says "she does not love the defendant and is wholly unwilling to live with him." Lewis is said to be a machinist employed at the Washington navy yard and his age is stated at twenty-three years.

He Confided.

John Sharp Williams, the democratic leader of the House, was besieged Saturday by reporters who wanted to find out if he really intends to resign his leadership. Mr. Williams would not tell. He said to everybody: "Nobody but myself knows why I want that democratic caucus, and nobody will know until I go into the caucus." Late in the afternoon he thawed out a bit. He called two or three of his newspaper friends, who had been reproaching him for being so secretive, and said: "Boys, I have decided to confide in you. I called that caucus for the purpose of advocating a return to government by consuls, under which system the Roman republic prospered for a thousand years." Nobody bothered him after that.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick, of Colusa, Calif, writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by E. S. Leadbeater & Sons, druggists.

Mr. Wm. S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This liniment is for sale by Gibson & Timberman and W. F. Creighton & Co.

All who use Atomizers in treating nasal catarrh will get the best result from Ely's Liquid Cream Balm. Price, including spraying tube, 75 cts. Sold by druggists or mailed by Ely Bros., 56 Warren St., N. Y.

New Orleans, Sept. 1, 1900.

Messrs. ELY BROS.:—I sold two bottles of your Liquid Cream Balm to a customer, Wm. Lamberton, 1415 Delachaise St., New Orleans; he has used the two bottles, giving him wonderful and most satisfactory results.

GEO. W. DUFF, Pharmacist.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

No More Stomach Troubles.

All stomach trouble is removed by the use of Kodol Dyspepsia Cure. It gives the stomach perfect rest by digesting what you eat without the stomach's aid. The food builds up the body, the rest restores the stomach to health. You don't have to diet yourself when taking Kodol Dyspepsia Cure. J. D. Erskine, of Allenville, Mich., says, "I suffered Heartburn and Stomach trouble for some time. My sister-in-law has had the same trouble and was not able to eat for six weeks. She lived entirely on warm water. After taking two bottles of Kodol Dyspepsia Cure she was entirely cured. She now eats heartily and is in good health. I am glad to say Kodol gave me instant relief." Sold by all druggists.

HAMLINS

WIZARD OIL

is a treatment which affords a positive cure for rheumatism and allied diseases.

Applied externally, it relieves the pain at once. Taken internally, it cures permanently by purifying the blood of the lactic acid which causes the disease.

Anthony Smith, of Mayville, Ill., says: "I had such severe rheumatic pains in my arm and shoulder that I could neither work nor sleep and was fast losing all hope of cure, when I heard of and tried Hamlins Wizard Oil, two bottles of which performed a perfect, permanent cure." Price, 50c and $1.
